The Search Agency is a fast-growing company in the ever expanding Search Engine Marketing (SEM) space. We have built proprietary technology for managing and optimizing bids on Google AdWords and MSN Bing/Yahoo, among others. We work closely with the major engines on their advisory councils and with their alpha and beta software. The Search Agency recently ranked number 83 on Deloitte's **Technology Fast 500™**, Deloitte LLP's ranking of 50 of the fastest growing technology companies in North America.

We are located in great converted mill space in downtown East Greenwich, Rhode Island - easily accessible from Rt. 95. There are plenty of cool shops, restaurants and lunch places nearby and even better - we keep the cabinet and refrigerator stocked with (free) drinks and snacks.

If you are motivated and are looking to learn more, work in small teams, embrace agile processes, are proficient in one of these two areas, and love writing clean, object-oriented code every day, let us know!

Opportunities:

- PHP and Java Developers (full-time and internships)
- Quality Assurance Engineers

The Search Agency is an Equal Opportunity Employer.
